

Then suddenly he heard a voice,  
And this is what it *(felt, ate, said)*:

Your time is up, your life is through  
It's time to answer this:

Or are you only

Choose the right  
word at the end  
of each sentence.

He worked and worked and  
Never gave, all he did was  
*(run, sleep, take).*

He worked all year to keep  
His crops green and always  
(food, green, growing).

Plant this field with  
seeds as you find  
your way. Then grow  
them by drawing plants.

• END

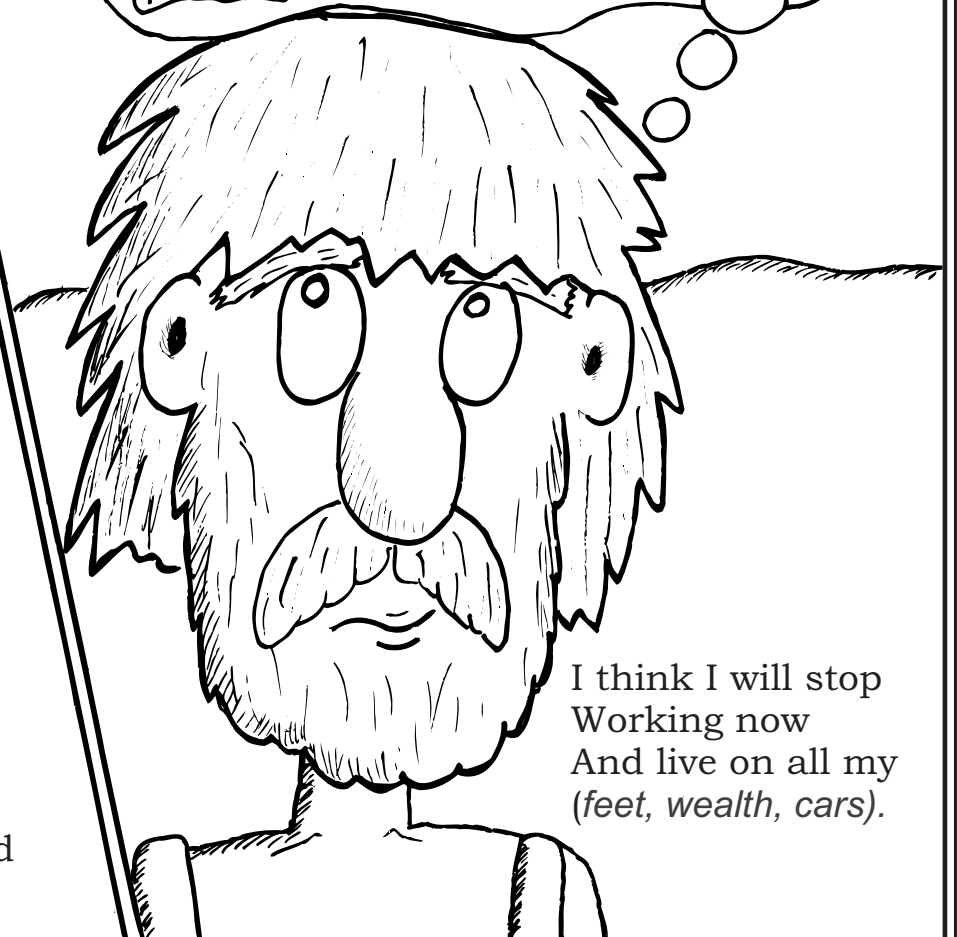

He worked for years until his barns were full and  
(happy, overflowing, dirty).

Then one day he looked around, and he said to  
(dog, mommy, himself).

Match the money  
with the words.

five dollars  
twenty-five cents

Working now  
And live on all my  
(feet, wealth, cars).
