Color the spaces with dots to find the hidden words.

The phoenix is a mythical bird (a bird that exists in stories and legends) and a very old symbol of Christ. Legends said that the phoenix would live for five or six hundred years, build a nest, and then burst into flames. It would then rise from the ashes and live again.

Why do you think the phoenix reminded people of Christ?

Ezekiel 37

God always offers us hope, even when things feel hopeless. God showed Ezekiel a field full of dry bones. He asked Ezekiel, "Can these bones live again?" He answered, "I don't know, Lord, you tell me."

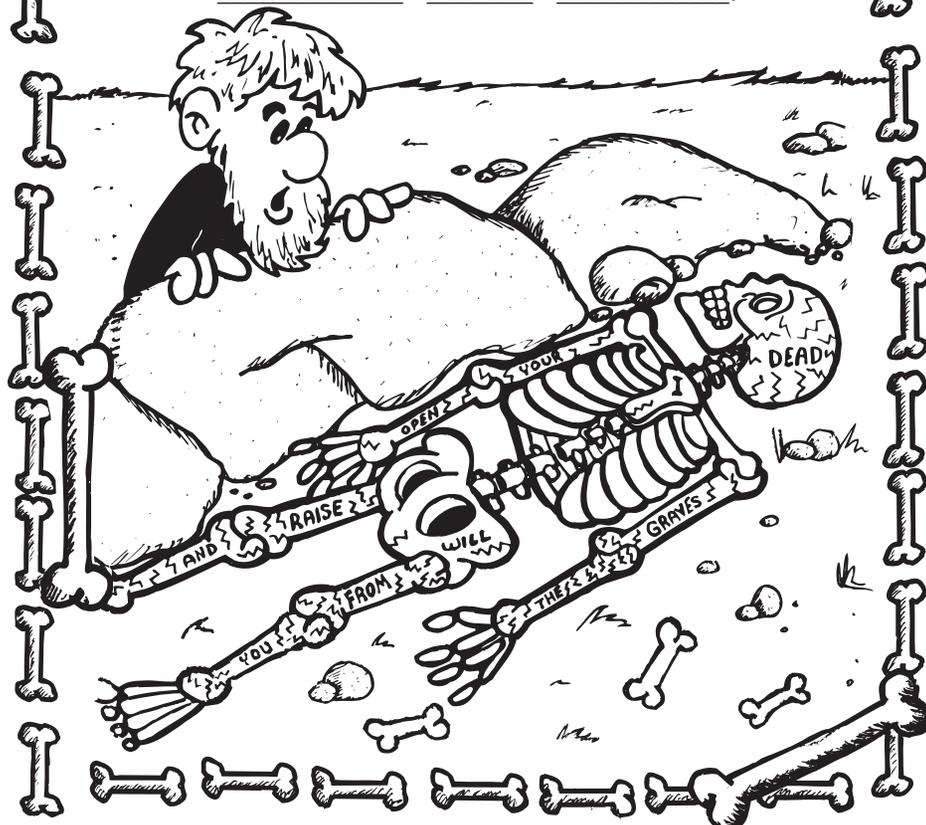

To learn God's answer, put the words from the bones in order, below.

The word in the bone with one crack goes in the first space, the word in the bone with two cracks goes in the second space, and so on.
